# Od zubních vrtáčků po špičkové traumatologické implantáty MEDIN

MEDIN, a.s., je tradičním českým výrobcem lékařských nástrojů a implantátů. Portfolio firmy tvoří produkty pro traumatologii, chirurgii, stomatologii a ortopedii. Společnost dodává své výrobky do desítek zemí celého světa.

## Zahájení výroby a budování podniku Chirana

Budoucnost jedné z předních společností České republiky se začala psát dne 29. srpna 1948, kdy byl v Novém Městě na Moravě položen **základní kámen závodu Chirana**. V roce 1949 byla zahájena výroba zubních vrtáčků a fréz pro zubní laboratoře.

V únoru 1950 rozšířila Chirana své **portfolio o chirurgii**. Do výrobního programu bylo zařazeno 25 druhů nejběžnějších chirurgických nástrojů. Ve stejném roce Chirana **poprvé exportuje** své výrobky, a sice do Bulharska, Rumunska a Německa.

Roku 1957 byl podnik rozšířen začleněním firmy Diamantrob, která se zabývala patentově chráněnou výrobou diamantových nástrojů pro zubní lékaře. Chirana pod své vedení vzala také

firmu Pelc-Tyrolka a firmu Koutný, produkující speciální nástroje pro chirurgii. **V roce 1968 byl zřízen holding Chirana Nové Město.**

Počátkem 70. let dominovala snaha o rozšíření výroby. Výsledkem bylo více než 5 milionů vyrobených vrtáčků, počátkem 80. let až 9 milionů vrtáčků. Výroba pokrývala také přes 4 tisíce druhů chirurgických nástrojů.

Do výrobního programu byl v roce 1990 zařazen **obor traumatologie**.

## Privatizace a vznik společnosti MEDIN

V roce 1992 byl státní podnik Chirana zařazen do první vlny privatizace a dne 24. března 1992 vznikla akciová společnost MEDIN, právní nástupce státního závodu Chirana. V té době byla firma MEDIN vlastněná 154 zaměstnanci podniku.

Dne 23. března 2006 koupila společnost MEDIN firmu WALTER Medica a následně ji přejmenovala na MEDIN Orthopaedics, a.s. Společnost MEDIN tím rozšířila své **portfolio o ortopedii**.

V roce 2010 byla založena v Rusku dceřiná společnost MEDIN RU. Společnost MEDIN se od roku 2011 prezentuje novým logem.

MEDIN získal v roce 2012 druhou dceřinou společnost, a sice založením firmy MEDIN Slovensko. V roce 2013 došlo k propojení obchodní sítě MEDIN s firmou ProSpon, spol. s r.o. a MEDIN se tak stal výhradním distributorem ortopedických výrobků společnosti ProSpon. Dne 14. března 2014 zvítězil MEDIN, a.s., v soutěži Česká inovace v kategorii Inovativní firma. Ocenění se váže k patentovanému patnímu hřebu C-NAIL.

## Školení lékařů

Vedle vlastní kvalitní výzkumné a vývojové základny je nezbytným předpokladem inovativnosti firmy a uplatnění svých produktů v náročných podmínkách trhu schopnost poskytovat kvalitní doprovodné služby. Jednou z těchto služeb, kterým se společnost MEDIN úspěšně věnuje, je pořádání odborných školení, praktických workshopů a seminářů zejména pro mladé lékaře a další zdravotnický personál. Tato vzdělávání probíhají v úzké spolupráci s firmou SOGGIORNO, s.r.o., v rámci celoživotního vzdělávání zdravotníků formou výuky operačních postupů s novými nebo inovovanými produkty firmy. Odborné semináře vedou špičkoví a vysoce uznávaní lékaři zejména v oborech traumatologie, ortopedie a chirurgie, s nimiž se firmě podařilo navázat úspěšnou dlouhodobou spolupráci. Školení je zajišťováno ve školicím středisku přímo v areálu společnosti MEDIN nebo v prostředí klienta.

# Jaké hodnoty vám předáváme společně s výrobky?

Každý nástroj či implantát projde během zpracování rukama řady lidí a jeho výroba trvá až několik hodin. Nese tak s sebou i kus naší filozofie a základních hodnot.

*Kompletní nákup chirurgických nástrojů.  
Ze široké nabídky firmy MEDIN jsme si  
dokázali velmi dobře vybrat.“*

*Mgr. Renáta Michalíčková, staniční sestra  
op. sálů, Thomayerova nemocnice Praha*

## Užitná hodnota výrobku

Celá cesta výrobku, od vlastního vývoje po distribuci, má jediný cíl. Dát lékařům do rukou kvalitní nástroj, který usnadní operační zákrok a pomůže při jejich vlastní práci.

*„MEDIN instruments are good quality and long life. Most of the items prices are reasonable. We have been dealing with MEDIN for 6 years.“*

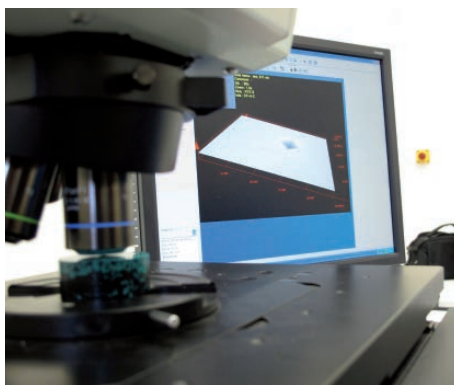

*A. A. Zahar, Sala Medical, Oman*

## Zákazník

Našimi konečnými zákazníky jsou lékaři a zdravotní sestry z oborů chirurgie, traumatologie, ortopedie a stomatologie. Snažíme se, aby řešení, která zákazníkům přinášíme, co nejvíce kopírovala jejich potřeby.

Testování nového instrumentária

Zkoušky tvrdosti výrobku

*„Komunikace je na velké úrovni a skoro vše vyřídí jeden telefonát a to s velkou ochotou.“*

*Markéta Adamová, staniční sestra ORT  
op. sály, Nemocnice Rudolfa a Stefanie Benešov*

## Naše okolí

Uvědomujeme si, že každá lidská činnost přináší změny v životním prostředí. Proto aplikujeme systém environmentálního managementu EMS. V rámci modelu Plan – Do – Check – Act Cycle neustále zkoumáme jednotlivé postupy ve firmě a hledáme ekologicky šetrnější varianty.

Sídlo naší společnosti se nachází v Novém Městě na Moravě, v dějišti řady sportovních událostí

# From tooth drills to top-class traumatology implants MEDIN

MEDIN, a.s., is a traditional Czech producer of medical instruments and implants. The company's portfolio consists of products for traumatology, surgery, dentistry and orthopaedics. The company exports its products to dozens of countries around the world.

## The start of production and building Chirana

The future of one of the leading companies in the Czech Republic began on 29 August 1948, when the **foundation stone of the** Chirana works was laid in Nové Město na Moravě. In 1949, production started on dental drills and milling cutters for dental laboratories.

In February 1950 Chirana expanded its **portfolio to surgery**. 25 of the most common surgical instruments were included in the production programme. In the same year Chirana **first exported** its products, namely to Bulgaria, Romania and Germany.

In 1957 the company expanded by incorporating Diamantrob, which was involved in the patented production of diamond tools for dentists. Chirana

also took Pelc-Tyrolka and Koutný, companies producing special tools for surgery, under its management. **The Chirana Nové Město holding was set up in 1968.**

The early 1970s were dominated by an endeavour to expand production. The result was the manufacture of over 5 million drills, in the early 80's this had increased to 9,000,000 drills. Production covered over 4,000 kinds of surgical instruments. The field of traumatology was introduced into the production programme in 1990.

## Privatization and the emergence of MEDIN

In 1992, the state enterprise Chirana was included in the first wave of privatization and on 24 March 1992 the joint-stock company MEDIN was founded, the legal successor to the state-owned Chirana. At the time, MEDIN was owned by 154 company employees.

On 23 March 2006, MEDIN bought WALTER Medica and subsequently changed its name to MEDIN Orthopaedics, a.s. This allowed MEDIN to expand its **portfolio to orthopaedics.**

In 2010 a subsidiary, MEDIN RU, was founded in Russia. Since 2011 MEDIN has had a new logo.

In 2012 MEDIN gained a second subsidiary, namely through the founding of MEDIN Slovensko. In 2013 the MEDIN business network was linked to ProSpon, spol. s r.o. and MEDIN became the exclusive distributor of orthopaedic products for ProSpon. On 14 March 2014 MEDIN, a.s., won the Czech Innovation contest in the Innovative Company category. The award is for C-NAIL a patented calcaneal nail.

## Training doctors

Besides its high-quality research and development programme, the provision of good-quality services is a prerequisite of a company's innovation and its ability to sell its products in the demanding conditions of today's market. One of these services, which MEDIN has had great success in, is the organization of professional training, practical workshops and seminars especially for young physicians and other medical personnel. This training takes place in close cooperation with SOGGIORNO, s.r.o., as part of lifelong education for health care professionals and takes the form of training in operating procedures with new or innovated products from the company. Professional seminars are led by leading and highly respected doctors, in particular in the fields of orthopaedics, traumatology and surgery, with whom the company has been able to establish successful, long-term cooperation. Training is provided in the training centre directly at MEDIN or at the client's premises.

# What is the added value we offer with our products?

During processing, each instrument or implant passes through the hands of a number of people and takes up to several hours to produce. As such it carries a part of our philosophy and basic principles with it.

*"Our operating theatres are brand new which meant purchasing a full range of surgical instruments. We were spoilt for choice from the wide offer range provided by MEDIN."*

*MSc Renáta Michalíčková, Head Nurse for operating theatre at Thomayer's Hospital, Prague.*

## Customer

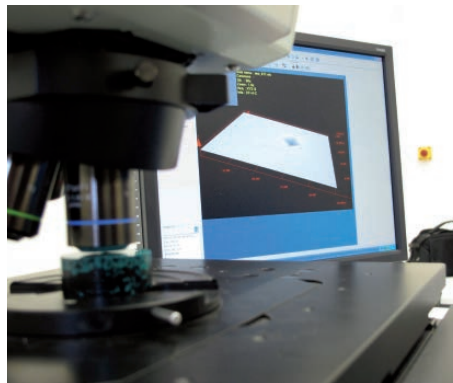

Our end customers are doctors and nurses from the fields of surgery, traumatology, orthopaedics and stomatology. We try to ensure that the solutions we deliver to customers match their needs as closely as possible.

Testing of new instrumentaria

## Useful product value

Throughout the journey of making a product, from actual development right up until distribution, there is only one goal – to provide doctors with a quality instrument which will facilitate the operation procedure and assist them in their own work.

Tests on product hardness

*"Communication is of the highest level and is almost always dealt with over one phone call and with a great sense of willingness"*

*Markéta Adamová, Head Nurse ORT operating theatre, Rudolf and Stephanie Hospital, Benešov*

*"MEDIN instruments are good quality and long lasting. Most prices of items are reasonable. We have been dealing with Medin for 6 years."*

*A. A. Zahar, Sala Medical, Oman*

## Our surroundings

We are aware that all human activity is accompanied by changes in our environment. For this reason we have put in place a system of environmental management called EMS. As part of our Plan – Do – Check – Act Cycle model, we are constantly exploring individual processes in the company and looking for options which demonstrate greater consideration to the environment.

Our head offices are located in Nové Město na Moravě, venue of sporting events

**POZNÁMKA:**

Katalogová čísla MEDIN jsou v katalogu uvedena ve zkrácené podobě bez předčísí pro zdravotnické prostředky.

Například: katalogové číslo / objednáací číslo  
XXX XX XXXX / 397XXXXXXXXX

Aktuální konverzní tabulku nebo ceník s kompletními objednáacími čísly si vyžádejte u svého obchodního zástupce.

**NOTE:**

MEDIN catalogue numbers in this catalogue are listed in short form without the prefix for medical devices.

For example: catalogue number / order number  
XXX XX XXXX / 397XXXXXXXXX

Ask your sales representative for the up-to-date conversion table or the price list with complete ordering numbers.

POZNÁMKA:

Katalogová čísla MEDIN jsou v katalogu uvedena ve zkrácené podobě bez předčísí pro zdravotnické prostředky.

Například: katalogové číslo / objednáací číslo  
          XXX XX XXXX / 397XXXXXXXXX

Aktuální konverzní tabulku nebo ceník s kompletními objednáacími čísly si vyžádejte u svého obchodního zástupce.

NOTE:

MEDIN catalogue numbers in this catalogue are listed in short form without the prefix for medical devices.

For example: catalogue number / order number  
              XXX XX XXXX / 397XXXXXXXXX

Ask your sales representative for the up-to-date conversion table or the price list with complete ordering numbers.
